## X-Mas Gifts Needed For Wounded Soldiers

Would you like to help a wounder Korean War Veteran?

Special effort is being made this year through the Volunteer Service Chairman of Milam County Red Cross, Mrs. Grady Stidham, to collect Christmas gifts for men who are patients at Fort Hood Hospital this Christmas.

Mrs. Stidham who has been county service chairman in this work for several years said the men would like any gift suitable for a man such as, T-Shirts, underwear, stationery, pen and pencil sets, fruit cakes, candies, or any other men's gift you might want to give.

By Christmas over 1,000 wounded soldiers will be patients at Fort Hood and McCloskey Hospitals and the least anyone can do is to go down and purchase a man's gift for one of the wounded soldiers.

Gifts may be left with Mrs. Stidham, at 822 North Houston Street, phone No. 321. She requested if anyone wishes to help with this activity to please call her. The gifts need not be wrapped. Many hundred will be unable to visit their homes during the yuletide season and a gift from you will make some lonely wounded soldier happy at Christmas time. The vets also like Western and comic books. Tree decorations are also needed to decorate the Christmas trees at the hospitals.

Mrs. Stidham recenty attended a meeting of the Central Texas Hospital Council where these arrangements were discussed.

This squad was chosen from votes of the five district coaches. Yoemen landing a berth on the first string eleven are: Glenn Rosenberg, Eddie Lankford, backs, Bobby Stanislaw, end; and Denson Ermis, tackle.

Lankford was picked as the best back in the district as well as the most valuable player. Joe Moehring was chosen the best lineman in the district. The Yoemen ace back was chosen on his merits as the best broken field runner in the district that were displayed on his many punt returns for touchdowns this season. Lankford along with Moehring and Edward Day were unanimous choices.

Glenn Rosenberg and Bobby Stanislaw received top recognition too, in the balloting of the coaches. Rosenberg was high point scorer for the district with 128 points to his credits, which includes 18 touchdowns and 20 points after touchdown. His toe has played an important role in a number of games this season, especially with Georgetown.

Georgetown Eagles also placed four men on the squad, namely. Bailey Marshall, ace back; Edward Day, center; Joe Moehring end, and Floy Wutrich, guard. The Eagles were runner-up in the district. They were defeated only once in district play 14-12 by the Yoemen.

Bobby Passemann, guard, and Donald Rydell, tackle, both of the Taylor Ducks were on the first team. Paul Zipperlin, Panther ace back, completed the first eleven. Zipperlin was the speed demon for the Rosebud offensive although the season. The 150 pound junior was a threat to any defense this season and much will be expected from him next year.

# Young Men Extended Deferment May Be Drafted In Nine Years

Austin, Texas, Nov. 6.—Young men of draft age who now ask for and get deferments under certain conditions automatically extend the time during which they may be drafted by nine years.

This was pointed out here in a statement today by Lt. Col. Morris S. Schwartz, deputy state Selective Service director, in clarii fying recently received regulations on extended draft liability.

"The President on June 19th signed into law a draft amendment providing that all men 'now or hereafter deferred' can be drafted up to their 35th birthday," Col. Schwartz said. "The regulations now spell this out."

Col. Schwartz pointed out that the man who does not get any of the deferments mentioned in the draft regulations cannot be drafted upon reaching his 26th birthday.

He pointed out the following types of deferred men who have their liability for service extended until age 35:

1. Men who enlist at any time in the National Guard after February 1, 1951, before attaining the age of 18 years and six months.
2. Members of the ROTC and other officer training programs.
3. Accepted aviation cadet applicants.
4. Students deferred to go to high school or college under requirements of law; college students deferred under authority of the local board.
5. Men left at home to pursue civilian employment considered to be in the national interest.
6. Men deferred to farm.
7. Men who maintain a bonafide family relationship in their homes with their children, or because of extreme hardship and does not include a man with a wife alone.)
8. Any man who might be deferred because he is governor of the state, any other official chosen by the voters of the entire state, any member of the legislature, or any judge of a court of record in the state.
9. Men classified as mentally, physically, or morally deficient or defective.

"All men under 26 years of age on June 19th who has one of these deferments or who since that time got one before he was 26, will be liable for service until he is 35," Col. Schwartz emphasized.

"It's possible under this provision of law," he said, "for such deferred men to become disqualified for deferment at—say, age 34. If that happens, they can be drafted.'

THREE WISE MEN

**BOB** is *one* wise fellow who's saying Merry Christmas with an *electric* range. His is a family with a budget . . . and he knows the *economy* of cooking electrically. A modern electric range actually *saves* you money, because there's less food shrinkage. Dependable electricity costs less than one cent per person per average meal!

**BEN** is another wise fellow who knows that with an electric range, the kitchen is easy to keep neat and clean. There's no smoke or soot to blacken pans . . . only a minimum of clean-up time is needed. He knows an electric range is the ideal gift for a cleaner kitchen!

**BILL** is a smart young man who believes no woman should be a slave to a kitchen! He knows that a modern *electric* range means more hours of leisure for the wife. Thermostatic temperature control maintains an *even* heat and a timing device turns the oven on and off automatically, so very little supervision is necessary. Of course, all *three* wise men knew that an electric range is a gift to be enjoyed every day in the year!

# Good Roads Committee Requests City Council To Take Action

The Good Roads Committee of the Chamber of Commerce recently requested the City Council to take necessary steps to acquire right-of-way through the city of Cameron.

The committee had recent contact with Mr. Blair and Mr. Thames of the State Highway Department and they assured that all the right-of-way is clear throughout Highway 36 to the Bell County line, that the contract on this road will be let in early part of the year, which the committee asumed would be some time in February or March.

Since the first part of 1952 is just around the corner, the Good Road Committee requested the City Council and City Attorney take immediate steps to secure through condemnation proceedings the property belonging to Newton Hospital and Mrs. Irene Torno.

The committee feels it would be a great neglect if the city is not in a position to certify the right-of-way to the Highway Department when they are ready to continue work.

At a recent meeting of the council the aldermen instructed the City Attorney, Roy Baskin to take necessary steps to secure right-of-way through proper condemnation procedure.

Miss Magnolia Gee, professor of education at Mary-Hardin Baylor spent Thauksgiving Day with Mrs. Eunice Lawrence and family here.

## Texans Increase USO Fund, Armed Forces

Texans in the past two months have subscribed $552,370, toward a state goal of $700,000 to proservices of the USO to our Armed Forces in this country and abroad Ben H. Wooten, campaign chairman, reported today.

"This is a good showing representing 78 per cent of our goal," Mr. Wooten said. "Many counties have completed their campaigns and some have oversubscribed their quotas, but there are a number of others which are incomplete or just beginning. It is very necezsary that the remaining $147,630 be raised to complete our goal, and the only way we can do this is for each county to meet its quota."

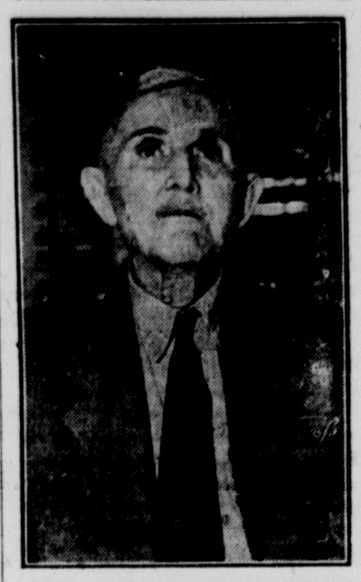
## Collins, at 95, Oldest Rail Engineer in U. S.



STILL hale and hearty at 95 and enjoying to the full the fruits of his retirement, Sextus A. Collins of 55 Channing St., New London, Conn., pensioned Central Vermont Railway engineer, is not only the oldest C. V. pensioner, but is believed to be the oldest retired railroad engineer in the United States.

Collins, who takes a walk out of doors every day the weather is fine, traveled to Brattleboro, Vt., this fall to attend a Central Vermont Railway pensioners' meeting and had a "fine time" because the trip "didn't tire me at all."

The old engineer was born July 24, 1856, and went to work as a C. V. fireman in 1887. Two years later he was promoted to engineer and ran trains between New London and Brattleboro, Vt., until his retirement in 1934 at the age of 78. He says his claim as the oldest retired locomotive engineer in the United States has never been challenged.

## Agriculture Dept. To Improve And Enforce Seed Laws

The Texas State Department of Agriculture is giving a lot of attention toward better planting seed for Texas through better state seed law enforcement and through revising some of the out of date seed laws.

It is responsible for protecting the public on all planting seed sold which is a sizeable job in a state like Texas that produces about one billion dollars worth of crops per year.

The Department, in order to improve the seed laws and their enforcement, is following its usual pattern of first getting the counsel and cooperation of others. The Texas Seed Council, Texas Seedmen's Association, and Texas A&M College are a vital part of this better seed program.

Jointly these three groups helped sponsor a week's "Short Course for Seedmen" this past summer at College Station, Texas. The purpose was to better acquaint the seed trade with problems of seed laws and their enforcement in Texas.

# Patrolman Kornegay Quits Safety Department For Shrimping Job

E. W. "Danny" Kornegay, state highway patrolman well known in this county and area will make his last ride by land this month, and will thereafter patrol by water.

Kornegay who was born in Milam County has been with the State Department of Public Safety for the past two years. He has been located at Three Rivers in Live Oak County during this period of time. He is resigning from the department to go into the shrimping business, operating out of Port Isabel.

The motoring public is going to lose a good friend when the short-soft speaking young patrolman quits. The Department of Public Safety is going to lose an employee the like of whom it needs a lot more, and the citizenery of Texas is going to lose a public servant who added character as well as force to the law enforcing ranks of the state.

Kornegay has made a conscientious study of his job and has made an even closer study of why his job is necessary. With cheerful hopelessness, he kept visualizing the day when people would have sense enough to drive cars without constant supervision and correction. He spoke of the relative state of development of people and machines—and ruefully admitted that the machine must be somewhat superior to the operators at this point of time. But he apoligized for the erring humans, remarking they hadn't had time to catch up, but he was sure they would.

Korengay has been the kind of officer who make more effort not to arrest a person for faulty driving, and get him booked in court and penalized, than he would to catch the offenders, but this, by no means, is to say that he was lax in viligance. He just wanted to give everyone a break. But after he made the inevitable arrests in more cases than suited him, Kornegay would see that they paid their penalties. He had made sure they were at fault first—the law would have to take its course.

His decision to change his own course, was dictated by the necessity to give others a break. Those getting his consideration this time are members of his family.

He has a home with a wife and two children in Three Rivers. He does not see how he can give them what he thinks they deserve, now and in the way of future security, on the salary he makes. He has enjoyed working in the Safety Department, and he is quitting to embark on a strange business, which he would not prefer at all if it were not necessary. He rode a boat on one shrimp hunt, to see if he thought he could take it, he explained; and decided he could, with the prospect of more immediate income to be had and for more likelihood of a quicker increase in pay.

As a highway patrolman, he carried a book in his pocket so that he could study the laws, would know how and when to act, and could explain with regret to traffic law violators just how they had erred and why it was necessary for him to take official cognicance of their transgressions.

And, it will be a surprising if he gets a book on shrimping boats, weather, and other facts about the business.

And it is likely he will look with as much regret on the netted shrimp as he did on the arrested drivers he dealt with-but he'll still be acting with a clear conscience.

Kornegay's superior officers have assured him he has a job awaiting him if he ever wished to return to their department; county officials of LiveOak County quickly said they'll be glad to have him back.

The regrets of a man like Kornegay when leaving a job do not equal the regret of people he has known and worked with at having him leave—which is another way of saying he was doing his job better than all right.

But a man's got to make his way in the world.

--George West Herald-News.

I am very proud to learn that Southern Select keeps its friends longer than any other popular priced beer.

As a result of a survey made among thousands of beer drinkers by a leading independent research organization, we have found that 89 4/10% of the people who prefer Southern Select have held it as their favorite for two years or more. No other beer sold in Texas can count so many long-time friends.

When we know that Texans can choose from a number of really good beers, I think we can be especially proud of this loyalty to Southern Select.

I know that I can depend on everyone here at Southern Select to see that Southern Select Beer continues to deserve this heart-warming popularity.

# La Vega Pirates Trim Huntsville Hornets 21-0 In Quarter Finals

The LaVega Pirates smashed their way to a 21-0 victory over the Huntsville Hornets Friday night, placing them in semi-finals against Donna, who defeated Lamar of Rosenberg by a score of 21-13.

The Pirates started out with a bang in the opening quarter, but were soon halted midway the first quarter. In the second period the Pirates slashed off their first TD in a 60 yard drive, with Keller and Tyler lugging the ball most of the time with Tyler plowing over.

The score at the half was 7-0. As the second half got underway the LaVega team lost no time in striking pay dirt again, only to be stopped on the Hornet's four yard line, however on the next play Dan Driscoll fumbled for the Huntsville team and the irates recovered on the 9 yard line. On the second play from scrimmage Keller blasted over standing up for the counter.

The Pirate's final tally came early in the fourth quarter on a 50 yard march plus a 15 yard penalty. The series of plays was climaxed with a neat pass from Glen Schutza to Tyler on the Hornet 11. In two plays the double stripe was crossed with Keller prancing through left tackle.

The LaVega team played one of their best games of the season. Had two touchdowns called back on account of penalties. The Pirates made 20 first downs to the Hornets 5. The game was played at Huntsville.

We sometimes think beauty is more essential than brains. A girl can get in the movies or on television without brains.

A civilized nation is the one where the body of a woman or a child may be found beaten to death on some lonely road.

**Sign of a Nice Guy**

Got so around these parts that everywhere a hunter went this fall, he came up against signs saying "PRIVATE PROPERTY, NO HUNTING, KEEP OFF." But not out at Happy Preston's place!

Happy's signs say "PRIVATE PROPERTY, GOOD HUNTING, BUT BE CAREFUL."

**"Don't hunt myself," Happy says, "but there's plenty of game on my property. I tell the hunters where the best spots are—away from where I'm working and where nobody else is hunting. It works out pretty well all-around."**

From where I sit, Happy has once again shown why he gets along with everyone and why everyone respects him. Happy's likes and dislikes might not be the same as his neighbors', but that doesn't stop him from *understanding*. When it comes to opinions on hunting, fishing, politics, ways of farming, or whether your favorite beverage is beer or cider, try to be like Happy and the chances are you'll be really happy!

**Picture of a man making a smart decision**

HERE is a man who's been doing a lot of thinking.

Someday, he's told himself, I'm going to turn in my old car and get a new one.

And he said, still talking to himself, when I do that I'm going to size up the field—give 'em all a real going over.

You see him here at the wheel of a Buick. He hasn't bought it—yet. It's a demonstrator, and he's trying it out.

But the more he tries it, the more he knows he's been wasting a lot of time.

From the moment he looked inside, he said: Here's the room—and the comfort—and the style I've been looking for.

Then he nudged its Fireball Engine into action. It's a high-compression valve-in-head, as you probably know.

He eased out into traffic. Stopped and started for a couple of traffic lights, and said something to the effect that this Dynaflow Drive* is a honey. Why don't they all build 'em this way?

He saw a bump ahead. Place where the pavement had been torn up. Other cars were braking down to a creep to cross it. He held back—rolled right across at regular speed with barely a bobble.

It's hard to believe, he said, but what they say about Buick's ride is right.

Ten minutes later he was out on an open stretch of road. Tried an experimental push on the gas treadle. Boy—what a take-off! You couldn't want more power than that.

Ten minutes more—and he knew something else. You don't really steer a Buick. It just about steers itself. Stays right on the beam on the straightaway. Even straightens itself out after a curve.

To make a long story short—he's found out that nothing else he's tried out can hold a candle—not even a little Christmas candle—to this bonnie beauty.

Back at the Buick showroom, he's going to get one more surprise. The price of a Buick is a lot less than he'd guessed it would be.

Moral: Smart Buy's Buick—right now.

## Death Holiday Toll Prediction Released

Austin, Dec. 12.—Homer Garrison, Jr., Director of the Texas Department of Public Safety, today released the prediction of his Statistical Division for the number of violent deaths which will occur in Texas during the eleven-day Christmas holiday season this year.

According to Garrison, N. K. Woerner, Chief of the Department's Stastical Division, estimates that 222 person will meet violent deaths during the period. Of these, 115 will die in Texas traffic accidents, 42 will be suicide or homicide victims and another 65 lives will be claimed by miscellaneous accidents such as fires, drowning, etc.

Director Garrison pointed out that Mr. Woerner's predictions for holiday periods and even for complete years have been consistsistently accurate in the past. He appeals to all citizens to furnish the utmost cooperation to the members of the Texas Highway Patrol and to their local police this year in an endeavor to prove the experts wrong.

"This," says Garrison, "can be accomplished by a strict observance of the traffic laws and by the exercise of the utmost caution with fires, firearms, and boating excursions."

The holiday death toll this year will be computed from midnight December 21st to midnight January 1st.

Rev. Jack Carson, Ministerial student at Baylor University was guest speaker for both the morning and evening services at Little River Baptist Church.

All reports revealed that the real beginning of such a program must come from the people who live within the community and a desire within those people to improve the existing conditions.

Whether that need lies in the building of better roads, painting phone service, reviving Wednesday night prayer meeting, remodeling the old school building for a community house or any other improvement the community feels the need of.

The Gay Hill Community between Rockdale and Thorndale worked on entering this contest in the spring of 1951. NUMBER ONE on the Christmas gift parade this year, as in years past, is, of course, a brand new bicycle. When ordering a new 1952 model bike from Santa, be sure the size is right. For children 3½ to 5 years old, get a 16-inch size with "outrigger" wheels; for 5-7 years, a 20-incher; for 8-10 years, a 24-inch bike; and for 11 years and up, a full 26-inch size.

Bigger Chickens

The politicians can't promise a better chicken than this, for here is visual and scientific proof that medical science's "wonder drugs" can bring about increased growth in poultry. Dr. J. Russell Couch, of Texas A & M College, displays two 10-week-old chicks. The one in his left hand weighs 2¼ pounds, the other 3¼ pounds. These chicks received identical care and feed, except that the larger one received an aureomycin-vitamin $B_{12}$ supplement in its feed. The remarkable growth-aiding properties of aureomycin, which is used against a wide variety of human diseases, have also been proved in turkeys, hogs, and calves.
